

## About Centle:

[Centle](#) is a pioneering student success platform founded by students at IIM Ranchi to revolutionize students into job-ready individuals. Centle is dedicated to empowering students with all the essential skills and confidence needed to excel in today's competitive job market.

### *The Job Readiness Challenge:*

Despite excellent academic backgrounds, many students struggle to translate their knowledge into strong interview performance and early career success. The pressure, stress, anxiety, lack of confidence and other unfamiliar scenarios of job interviews can be overwhelming, causing even top students to undersell their true potential.

### *Centle's Solution: Interview Mastery*

Centle connects students one-on-one with mentors who are seasoned professionals working at leading multinational corporations who understand the ever-evolving needs of the industry. Through personalized mentorship sessions, our mentors provide students with:

- Expert proven Strategies for Interview Success to manage interview anxiety and pressure
- Impart exceptional techniques to appear confident and "street smart"
- Simulated Mock interviews with expert feedback
- Insider Insights into Employer Expectations from real hiring managers.

Centle's mentors share techniques, hacks, and strategies to help students present themselves as confident, composed, and street-smart individuals to interview panels.

At Centle, we believe in tangible results. Our goal is not just to prepare students for interviews, but we aim to make students secure their dream jobs **within their first three interview attempts**. We understand the importance of making a meaningful impact on students' lives, and we are committed to helping them unlock their full potential.

Centle is more than just a platform; it's a catalyst for student success. We are passionate about building a future where every student deserves an opportunity to succeed, and we equip our students to seize those opportunities and thrive in the professional world.
